

The drawing is a detailed technical illustration of a traditional wooden roof structure, likely for a historical building. It shows the internal framework, including the rafters (Dachstuhl), the supporting beams (Balken), and the floor joists (Ellenzimmer). The drawing is annotated with numerous dimensions and labels in German, such as 'Fensterbank' (window sill), 'Tür' (door), 'Balken' (beam), and 'Ellenzimmer' (elliptical room). The drawing is oriented with 'Ansicht Süd' (South View) at the top left.

A 3D architectural rendering of a building's roof structure. The image shows the wooden framework, including the rafters and trusses, which are being installed on a white building. The roof is partially covered with dark grey tiles. The building has several windows with shutters, and the overall structure is shown in a perspective view.
